

TRANSPORTATION RESEARCH RECORD

Journal of the Transportation Research Board, No. 2155

Contents

Foreword	vii
<hr/>	
PART 1—PAVEMENT REHABILITATION	
<hr/>	
Bonded Whitetopping Overlay Design Considerations for Prevention of Reflection Cracking, Joint Sealing, and the Use of Dowel Bars Julie M. Vanderbossche and Manik Barman	3
<hr/>	
Reflection Cracking-Based Asphalt Overlay Thickness Design and Analysis Tool Sheng Hu, Fujie Zhou, and Tom Scullion	12
<hr/>	
Full-Scale Field Testing for Injected Foam Stabilization of Portland Cement Concrete Repairs Lucy P. Priddy, Sarah R. Jersey, and Cody M. Reese	24
<hr/>	
Assessment of Fracture Parameters to Predict Field Cracking Performance of Cold In-Place Recycling Mixtures Stephane Charmot and Pedro Romero	34
<hr/>	
Prediction of Reflection Cracking in Hot-Mix Asphalt Overlays Fang-Ling Tsai, Robert L. Lytton, and Sanglck Lee	43
<hr/>	
Performance of Recycled Hot-Mix Asphalt Overlays in Rehabilitation of Flexible Pavements Regis L. Carvalho, Hamid Shirazi, Manuel Ayres, Jr., and Olga Selezneva	55
<hr/>	
Expedient Spall Repair Methods and Equipment for Airfield Pavements Michael I. Hammons and Athar Saeed	63
<hr/>
