

Traffic Monitoring of Motorcycles During Special Events Using Video Detection Neeraj K. Kanhere, Stanley T. Birchfield, Wayne A. Sarasua, and Sara Khoeini	69
Evaluation of Autoscope, SmartSensor HD, and Infra-Red Traffic Logger for Vehicle Classification Xin Yu, P. D. Prevedouros, and Goro Sulijoadikusumo	77
Techniques for Validating an Automatic Bottleneck Detection Tool Using Archived Freeway Sensor Data Jerzy Wieczorek, Rafael J. Fernández-Moctezuma, and Robert L. Bertini	87
Effects of Temporal Data Aggregation on Performance Measures and Other Intelligent Transportation Systems Applications Alexander Y. Bigazzi, Helene Sini, and Robert L. Bertini	96
Effect of Axle Load Measurement Errors on Pavement Performance and Design Reliability Syed Waqar Haider, Ronald S. Harichandran, and Monther B. Dwaikat	107
Clustering Analysis to Characterize Mechanistic-Empirical Pavement Design Guide Traffic Data in North Carolina Fatemeh Sayyady, John R. Stone, Kent L. Taylor, Fadi M. Jadoun, and Y. Richard Kim	118
Volume Data Correction for Single-Channel Advance Loop Detectors at Signalized Intersections Yao-Jan Wu, Guohui Zhang, and Yinhai Wang	128
Simulation and Evaluation of Automated Vehicle Identification at Weigh-in-Motion Inspection Stations: Case Study from British Columbia, Canada Karim Ismail, Clark Lim, and Tarek Sayed	140
Synthesis Framework for Generating County-Level Freight Data Using Public Sources for Spatial Autocorrelation Analysis Minyan Ruan and Jie (Jane) Lin	151
Approach to Collecting Local Freight Information Jeffrey S. Thompson, Karen E. Yarbrough, Michael D. Anderson, Gregory A. Harris, and Kevin Harrison	162
