

<b>Interlaboratory Study on Measuring Coefficient of Thermal Expansion of Concrete</b> Gary L. Crawford, Jagan M. Gudimettla, and Jussara Tanesi	<b>58</b>
<b>Porous Concrete Pavements: Mechanical and Hydraulic Properties</b> George N. McCain and Mandar M. Dewoolkar	<b>66</b>
<b>Development of End-Result Specifications for Concrete in Virginia</b> Celik Ozyildirim	<b>76</b>
<b>Construction and Performance of Pervious Concrete Overlay at Minnesota Road Research Project</b> Vernon R. Schaefer, John T. Kevern, Bernard Izevbekhai, Kejin Wang, Heath E. Cutler, and Paul Wiegand	<b>82</b>
<b>Effects of Soil Clogging and Water Saturation on Freeze-Thaw Durability of Pervious Concrete</b> W. Spencer Guthrie, Carson B. DeMille, and Dennis L. Eggett	<b>89</b>
<b>Resistance of Portland Cement Pervious Concrete to Deicing Chemicals</b> Heath E. Cutler, Kejin Wang, Vernon R. Schaefer, and John T. Kevern	<b>98</b>
<b>Development and Application of Maturity Method for Prediction of Concrete's Resistance to Chloride Ion Penetration</b> Mateusz Radlinski, Jan Olek, and Tommy Nantung	<b>105</b>
<b>Concrete Containing Recycled Concrete Aggregate for Use in Concrete Pavement</b> Patrick Amoah Bekoe, Mang Tia, and Michael J. Bergin	<b>113</b>
<b>Cracking Tendency of Bridge Deck Concrete</b> Benjamin E. Byard, Anton K. Schindler, Robert W. Barnes, and Akash Rao	<b>122</b>
<b>Evaluating the Use of Recycled Concrete Aggregate in Pervious Concrete Pavement</b> Rabiah Rizvi, Susan Tighe, Vimy Henderson, and Jodi Norris	<b>132</b>
